Intermediate C# Software Developer

Job Title:	Intermediate C# Software Developer
Location:	Halifax, West Yorkshire
Salary:	£18k – 27k per annum depending on experience
Hours:	Monday – Friday 9am – 5:30pm
Holidays:	20

RAH Software is a start-up software company based in Halifax, West Yorkshire and we have a mix of customers both big and small. We are recruiting an intermediate level .NET software developer to join our growing company. We are looking to recruit someone who has experience developing software in a commercial environment.

RAH Software develops both bespoke and off-the-shelf applications for the Real Estate, Legal, Education and Hospitality sectors providing a great deal of variety, experience and training. As a modestly sized company we can offer a lot of attention and guidance to turn prospective employees into very experienced and skilled enterprise developers.

We have tight deadlines; and yet we refuse to compromise (ever) on the quality of our code. We have a huge product in the real estate sector which is still in development. You will be able to showcase your skills to help develop both a Web (ASP.NET) and Windows (Windows Forms/WPF) software application.

With the majority of your time spent on product development, you will have the freedom to discover best practices and learn new techniques which will take your skills to new levels and provide you with huge satisfaction.

As an equal opportunities employer we are not prepared to discriminate against educational background, age, sexuality, disabilities or race.

Essential Skill

- Good Communicator Spoken and Written (At least a GCSE (C or above) in English Language)
- At least two years developing C# applications in a commercial environment
- Fluent understanding of Relational Databases and commercial use of Microsoft SQL Server and MySQL.
- Ability to write, maintain and test Windows Forms Applications
- Ability to write, maintain and test ASP.NET Web Applications
- XHTML and CSS
- Ajax
- Web Services
- jQuery and JavaScript
- .NET 3.5 and 4 experience
- WCF, Windows Forms, ASP.NET
- MySQL and Microsoft SQL Server 2008
- MsTest

Desired Skills

- Exposure to Microsoft Dynamics CRM Platform
- Exposure to Microsoft SharePoint
- Team Foundation Server (Source Control)
- Infragistics UI Components
- Knowledge of the England and Wales Real Estate market (Sales and Lettings)

Responsibilities

- To meet tight deadlines set by management
- Communicate with clients via e-mail and telephone in a professional manner
- Develop software applications to an extremely high standard
- Document and Design software modules

Why work for us?

- Our developers remain “design and code focussed”
- We develop software “properly”. We do not accept “make do” code.
- We use the latest technology to ensure our products are always cutting edge
- We are in arguably the most exciting sectors, delivering exciting software

As you’d conclude from reading our job specification, we want only the best people for our company. Our interviews will require personality, aptitude and skill tests and you will be subjected to difficult and challenging questions.

If you have the above qualities and are interested in working in a small, flexible, easy-going but competitive and challenging environment, then please send a cover letter along with your C.V. to Rob.Heeley@rahsoftware.com
